HSW 6th Floor School of Dentistry Laboratory

Points of Interest

Small items worth mentioning

- CO2 monitoring in Ducts.
- Exhaust Duct over Copier
- Certified Wood not selected because of inferior appearance quality
- Laboratory Casework could have been FSC certified at no additional cost (not available at time of bid)
- Points not applied for include water reduction though we achieved 20% reduction.

Certification documentation all done in house by BDA's LEED Accredited Professionals.
